- Brave enough to dream big and work hard to achieve it.

Professional Experience

Frontend Developer

Odin Academy

2021 - Present

Odin Academy is an education-based platform that delivers top-notch content and hands-on experience in the field of software development.

- **Developed** Access Control from scratch to offer feature-based pricing plans and paywalls for in-app features upgrade. **Outcome:** Prompt A/B testing of suitable pricing model and creation of custom plans (based on enterprise's need) without much tech efforts.
- **Implemented** user authentication on client side using JWT tokens, ensuring a seamless and secure user experience.
- **Implemented** i18n, LocalizeJS, and our own internationalization library. **Outcome:** Expanded the product in multiple countries, improving acquisition metric.
- **Design and Developed** a highly optimized search functionality and Implemented a sophisticated caching mechanism to store and retrieve search results. **Outcome:** Improved search responsiveness and reduced server load, enhancing overall system performance and reducing latency.
- Optimization of application for maximum speed, compatibility and scalability.
- Collaborated with fellow developers for development of new customer onboarding.
- Build reusable code and libraries for future use.
- Maintained and developed Odin Academy CMS.
